Monday, April 21. 1707.

From the Antwerp Courant, dated April 26.

Naples, March 29.

ON Advice that the Banditi grow numerous on the Frontier, our Viceroy has order'd a Regiment of Dragoons to march from Gaeta to the Abruzzo. The 23d Instant there was a terrible Earthquake in Calabria, by which the Town of Cantanzaro and some adjacent Villages were ruin'd. Several Persons suspected of Disaffection to the Government, are taken up and imprison'd.

Rome, April 2. We have Advice that there is an Insurrection in the Abruzzo. Several Neapolitans and others that had taken Sanctuary in and about the Palace of Cardinal Grimani, are gone thither. The Pope is much indispos'd, and we begin to be under some Apprehension for him.

From the Amsterdam Gazette, dated April 26.

Milan, April 13. The Breaches made in our Castle during the Siege are repairing, and a Spanish Regiment is raising to be garrison'd in it. 600 Germans and Italians are put into Final. Great Preparations are made for sending a Body of Troops under General Taun towards the Kingdom of Naples, whence 'tis advis'd, that the Duke d'Attri, Vicar general of the Abruzzo, has made some Steps in Favour of King Charles III, on the News that the French were intirely to evacuate the Milanese and the Mantuan. The Marquis de Mirabel, formerly Governour of Valenza, is arriv'd here, whence he is to go for Spain, as are also Don Luca Spinola and Prince Pio. The Communication of this State with the Mantuan and the neighbouring States, is intirely open, and the Posts go without Molestation. A Person is taken into Custody here, for raising Men for the Republick of Venice without Leave. The 16th Instant Prince Eugene is in the Name of King Charles III to receive an Oath of Fidelity of our Tribunals, by Virtue of a Procuration sent him express from his Catholick Majesty. He has order'd a magnificent Coach to be made for him, to appear in that Day, when he is to take Possession in Form of the City and State of Milan. His Highness continues the Spaniards in the same Offices they had in the Castle under the former Government, and has even confirm'd in his Employment Don Pedro de Barsena, tho' he is still in the Service of the two Crowns. 'Tis talk'd 4000 Horse are to be forthwith rais'd in this State, and that besides the Body of Troops intended to be sent under General Taun to Naples, Prince Eugene will act with a considerable Body on the side of Dauphine. 'Tis reported the Duke of Modena will be made Vicar General of the Empire in Italy, and the Prince of Wirtemberg Governour of Cremona. The Earl of Peterborow who is arriv'd at Leghorne from Valencia, is expected to come hither. The Troops of the two Crowns continue to file towards Suza: Some Officers of those Troops that staid behind here, having refus'd to attend the Count de Bonafana to acquaint him with the Cause of their stay, have receiv'd Order to be gone forthwith under the Penalty of being made Prisoners.

From the Amsterdam Courant, dated April 26.

Turin, April 4. The 29th of March the Marquis

de la Florida, late Governour of the Castle of Milan arriv'd here in a Coach with 6 Horses, having in his Equipage a good Number of Led-Horses and Mules, and was lodg'd in the Palace of the Marquis of Pianezza. 1200 Men of the Troops of Philip V follow him out of the Milanese, and are furnish'd with Wood and Hay by the Inhabitants of the Places through which they pass. The 30th he march'd with his Men to Avigliana, whence after a Halt of 2 Days, he will proceed to Suza. The Governour of Suza has refus'd Passes to the Spanish Officers that are come hither with Design to go over from Genoa to Spain. 10 light Pieces of Cannon are got ready here, for the French Troops that are retire out of Italy to take with them to Suza, pursuant to the Capitulation.

From the Amsterdam Gazette, dated April 26.

Turin, April 6. The Commander of the Enemy's Troops that are in the Valleys of Perouse and Sr. Martin, having drawn together all those Troops, advanc'd some Days ago to Tourine, where he burnt a Corps de garde of the Vandois, and some Cassines. But the Vaudois, who were dispers'd in several Posts, drawing together, oblig'd the Enemy to retire, and falling upon their Rear Guard kill'd or wounded a great Number, and took several Prisoners. A Battalion which his Royal Highness has procur'd to be rais'd for him in Germany arriv'd some Days ago at Alexandria. He uses great Diligence to fill up his Troops, and remount his Horse: Great Part of the Horses he has caus'd to be bought in Germany are already arriv'd, and some new Battallions are raising.

The Advices from Poland tell us, that the Czar does not endeavour with so much Earnestness as formerly to procure a new Election of a King; and that that Affair being referr'd to a general Diet of the whole Republick, 'tis not believ'd it can be brought to an Issue very soon; Because 'tis very unlikely such a Diet should be conven'd till the Campaign is over, several Provinces having in their particular Diets declar'd, that 'tis impossible to take good Counsels, amidst the Disorders of an intestine War. Besides, the Adherents to King Stanislaus give out, that he will speedily return into Poland, assisted with Swedish Forces, to maintain his Election; and 'tis very probable the Republick will suspend their Resolutions, till they see the Success of their Campaign, for which the Czar makes extraordinary Preparations. The End of last Month his Czarish Majesty was at Lemberg, where he had made a Promotion of General Officers; frequent Conferences had been held there about the Operations of the Campaign; and the Foot were on the March to pass the Vittula at Warsaw.

Letters from Saxony of the 20th of April advise, that the 13 Regiments of Saxons which were in the Palatinate of Cracow, had at length left their Quarters, and were on the march to the Electorate of Saxony: Their Vanguard arriv'd the 12th in the Upper Silesia. The 18th King Stanislaus had a Conference with the King of Sweden, about the March of the Troops design'd for Poland.

Hildesheim, April 22. 'Tis advis'd from Saxony, that the French and Bavarian Ministers Besenwalde and Monusteroles, continue to sollicite the King of Sweden to offer his Mediation of a general Peace. The Princess Elizabeth of Wolfembuttel, set out the 19th for Vienna, being accompanied some Miles on her

her Way by her Father and Mother: She will pass the Easter Holidays at Erfurt, and thence proceed on her Journey. At Bamberg she is to make a 2d Time, a solemn Profession of her having embrac'd the Roman Catholic Religion, in Presence of the Archbishop of Mentz.

Whereas Mr. Yarwell, Mr. Sterrop, and Mr. Marshall, the 2 first were our Masters with whom we serv'd our Apprenticeships, and since for several Years we have made the best of Work for them and Mr. Marshall; and now they being envious at our Prosperity have publish'd several False, Deceitful, and Malicious Advertisements, wherein they assert that we cheat all that buy any of our Goods, and that we pretend to many Impossibilities and impose on the Publick, they having wrested the Words and Sense of our Advertisements, pretend that we affirm that a 2 Foot Telescope of our making will do as much as the best 4 Foot of another Mans make, and they fraudulently show in their Shops one of their best 4 Foot against our small one, and then cry out against the Insufficiency of our Instrument. Now we G. Willdey and T. Brandreth being notoriously abus'd, declare that we never did assert any such thing, or ever did pretend to Impossibilities, but will make good in every particular all those (note these are their own Words) (Impossible, Incredible, Miraculous, Wonderful and Astonishing) things mention'd in our Advertisements; which things perhaps may be Impossible, Incredible, Miraculous, Wonderful and Astonishing to them, but we assure them they are not so to us: For we have small Miraculous Telescopes, as they are pleas'd to call them, that do such wonders that they say it is impossible to make such, by the Assistance of which we will lay any Person 10 l. that instead of 2 Miles mention'd in our Advertisements, we will tell them the Hour of the Day 3 if not 4 Miles by such a Dial as St. James's or Bow. We are also making a Concave Metal Speculum that will unite the Sun Beams so vigorously that it will melt Steel and viterfy the hardest Substance, as small Stones, &c. Also several sorts of Microscopes, some of which magnifies the object as above 2 Millions of times bigger then it appears to the naked Eye. All these things are as they say impossible to them, but are and will be made by G. Willdey and T. Brandreth at the Archimedes and Globe in Ludgate-Street, the Corner next St. Paul's, and second Spectacle Shop above that which was Mr. Yarwell's. Let Ingenuity thrive.
